

Let us help  
you do more  
to prepare.

**Choosing to protect your mortgage with term life insurance is easy and low cost.**

When you buy term life insurance, you get to choose a coverage amount and term length that meets the needs of your family. If mortgage protection is your primary goal, choose a coverage amount that would pay off your mortgage and a term length that's at least as long as the life of your home loan.

Term life insurance can also give your family flexibility with how they use the payout. You can also pick a coverage amount or length that factors in other financial responsibilities you want to cover in addition to your mortgage, such as your annual income or children's college tuition.
